Víctor Salgado

Developer / Programmer

I am a programming professional with knowledge of both front-end and back-end development. I possess excellent planning and teamwork skills, which enable me to meet set deadlines and achieve optimal results. I would like to work for a company that supports the professional growth of its employees

Work History

2023-08 - 2023-08

Programmer, Developer

psicologiaa, San Bernardo
Psicologiaa was a personal project focused on a system similar to Doctoralia, but exclusively for mental health. It included blogs, posts, as well as individual profiles for people, distinct from the profiles of psychologists

2023-01 - 2023-03

Freelance

NotIA, San Bernardo
Trading robots with artificial intelligence were created in Python

2020-04 - 2022-10

Programmer, Developer

Audibots, Las condes
Automation robots were created. I worked as a freelancer for the company, which is why there is a 2-year gap between when I joined and when I left. The robots were built using UIPath, RocketBot, Javascript, and Python.

2022-08 - 2022-08

Programmer, Developer

freelance, San Bernardo
A webpage was created for a real estate seller. https://nqd.cl/#/. The page was built completely from scratch using ReactJS
